

Residential STEEL ROOFING

Lifetime Hidden Fastener Panels

Lifetime Exposed Fastener Panels

40 Year Exposed Fastener Panels

MIDWEST MANUFACTURING's Energy Star Compliant panels use either CERAM-A-STAR® 1050 Cool Chemistry® or CERAM-A-STAR 950 Cool Chemistry®

Manufacturer's Certification

AkzoNobel

Tomorrow's Answers Today

This is to certify that the metal roofing product purchased contains an AkzoNobel TRINAR® Cool Chemistry®, CERAM-A-STAR® 1050 Cool Chemistry® or CERAM-A-STAR® 950 Cool Chemistry® coating that:

- Is appropriately pigmented and is specifically and primarily designed to reduce the heat gain of a dwelling unit when installed on the dwelling unit; and,
- Meets or exceeds Energy Star® Roof program requirements for steep-slope roofs (as in effect at the time of installation), in accordance with IRS Notice 2006-26

Furthermore, a prepainted metal roof with the above-mentioned roof coating is an "eligible building envelope component that qualifies for the credit allowed under Section 1333 § 25C of the Energy Policy Act of 2005, later amended by the Emergency Economic Stabilization Act of 2008."

Declaration Statement:

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts presented are true, correct and complete.
